

WHAT'S THE DIFFERENCE...

...between the steak you buy at the grocery store and the one served at a fine restaurant?

It's the quality of the meat! Selection, aging, marbling and the skillful trim of an experienced meat cutter change everything. Flavor, tenderness, aroma, and consistency from portion to portion are just some of the things that make a restaurant-quality cut. Top restaurants have chosen products from Michael's Finer Meats and Seafoods to please their guests and protect their reputation for over fifty years, proudly placing our products on the "center of the plate". They trust Michael's to reliably and consistently provide the high quality they demand.

The Michael's Finest program features the same high-quality products as those served by these restaurants:
